RESPONSE TO RESTRICTION REQUIREMENT

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In response to the restriction requirement mailed December 1, 2008, Applicants elect the species represented by Claim 13, without traverse, for prosecution in this application.

The Office action Summary states that Claim 2 has been withdrawn from consideration. This is clearly incorrect, as Applicants elected Claim 2 for prosecution in the Response to Restriction Requirement filed on August 6, 2008. Applicants request confirmation in the next Office action that Claim 2 has been elected and is being examined.

Respectfully submitted,

Ira J. Schultz
